### April 24 – Mary Jo Lakhal, Greenwood Wildlife Rehabilitation Center

Mary Jo, a Greenwood Board member originally from Hawaii, spoke to our club members about Greenwood Wildlife located between Lyons and Longmont on Ute Hiway. Its mission is to rehabilitate sick, injured and orphaned wildlife for release into appropriate habitats; Greenwood also strives to educate the public, emphasizing humane solutions between human/wildlife interactions. Greenwood has been rehabilitating wildlife since 1982 and is one of the largest rehabilitators along the Front Range. Each year Greenwood cares for nearly 3,000 animals, representing more than 200 different wildlife species. Most of their patients are birds and small mammals.

Mary Jo reminded us that we cannot keep wild animals by law. Captured wildlife must be relocated within 10 miles where found. Greenwood has an 80% success rate in rehabilitating injured wildlife. She mentioned that Greenwood loves to speak to organizations about what they do, who they treat, and how to help. If you see wildlife in distress, call (303) 823-8455. More information is available at their website: [www.greenwoodwildlife.org](http://www.greenwoodwildlife.org).
